# Chang Issues Crucial Orders

**WANKING, (AP)—**Chang Kai-shek Friday night announced he had issued orders to all government troops to cease fire, except as necessary to defend their present positions. There was no immediate indication how long it would take President Chiang's order to become effective on the far-flung battlefields.

The truce order was designed to eliminate the Communist principal argument against participating in the national assembly, scheduled to open Tuesday to revise China's constitution.

It was issued as Chiang's troops had crushed Communist opposition in much of China and found them victoriously entering Russian-occupied Dairen, fighting bitterly to capture Chertov and Shantung province, and approaching Antung on the Manchurian Korean border.

There was a last-minute effort to insure all-party representation at the assembly. It came after weeks of hopeless deadlock during which the Communists refused to negotiate on the government's terms.

The order followed a prolonged meeting of national assembly delegates, Chang addressed them briefly.

The independent newspaper, Hsin Min Pao, said the truce order was issued in accord with the government's desire for peace, not to give any demands by the Communists.

The truce order would remove the main argument of the Communists who have insisted all efforts to draw them into the national assembly with a counter plan "it is useless to discuss and create only fighting to continue."

General Marshall, United States representative to the assembly, said the last two days, indicating to the Communists he was putting pressure on the generalissimo to agree to a positive plan to permit resumption of negotiations and to permit Communist participation in the assembly.

There was no early comment on the truce from the Communists who despite repeated military losses.

substantially had declined to negotiate a truce except on their own terms, restoration of all territory seized by the government since the quickly ended January truce, and recognition of political agreements reached early in 1945.

The Communists asked time to study the plan. Gen. de Gaulle for the President of the Fourth Republic said there was no comment from Gen. Marshall.

The order was regarded as a "definitive" political manifesto to force the Communists into a position of negotiation, and a "definitive" political manifesto for the responsibility for continuing the civil war.

Gen. de Gaulle's only intervention in the campaign, which estimates Sunday in the election of deputies for the national assembly, has been an appeal to the people, this party which favor changing the constitution. This was a lukewarm sounding of the M.R.P.

# U.S. Is Recalling Envoy to Albania

**WASHINGTON, (AP)—**The state department announced Friday that it was recalling its ambassador to Albania, and that the American representative in Albania would be replaced by a chargé d'affaires.

The announcement said the "United States government has concluded that the American mission could no longer serve any useful purpose by remaining in Albania."

A state department official said the American representative in Tirana, George D. Henderson, and his staff of eight would leave immediately for the United States.

The reason is said to be that the American mission could no longer serve any useful purpose by remaining in Albania.

# Warships Will Visit Turkish and Greek Ports

**WASHINGTON, (AP)—**United States warships, making their third excursion into the politically troubled waters of the eastern Mediterranean, will visit both Turkish and Greek ports in the next few weeks, the United States navy announced Friday.

"Arrangements have been completed by the state department for U.S. naval forces now in the Mediterranean, or en route there, to make visits to various ports incidental to training exercises during the latter part of November and early December," the navy said.

Both State Secretary Byrnes and Under-Secretary Dean Acheson have okayed the cruise.

State department officials, however, could shed no light on why they gave the warships the green light to make only virtually in the back yard of the Soviet Union only a few days after the department had asked the United States army to postpone a projected around-the-world flight by a fleet of B-29 Superfortresses bombers.

Although it never has been officially acknowledged that the state department caused postponement of the B-29 venture, it is close to Mr. Byrnes' said he was opposed to the flight at this time, partially because it was afraid it might be interpreted by Russia and other countries as "sword rattling."

Friday's navy announcement said the 27,000-ton aircraft carrier Randolph, the light cruiser Fargo and the destroyer Perry will put in at the Turkish ports of Izmir and Marmaris, Izmir, at the eastern end of the Mediterranean, was formerly named Nagasaki. Turkish harbors the ships will go to Beirut, Lebanon, and then turn northwest to visit Piraeus, Greece.

# Food Sought in Edmonton To Ease Alaska Shortages

**EDMONTON, (AP)—**Prime Minister Attlee may make an important speech in London, after his return from a tour of the British Empire, in connection with the annual meeting of the Commonwealth conference, which opens today. Some newspapers speculated that the speech would be on the subject of international economic affairs, but there was no official word.

It is possible that Edmonton may become a secondary food supply base for the interior of Alaska, with regular trucking service over the Alaska highway, was seen Friday. This development could result from a Seattle maritime dispute which has cut off Alaska from the mainland for two months, causing a shortage of food supplies.

Emergency measures to ease desperate shortages in Alaska, E. L. Patton, of Fairbanks, president of the Fairbanks Chamber of Commerce, was negotiating with packmen to place trucks in the area to transport food to the interior.

# Truman Believed Preparing To Co-operate with Congress

By Peter Inglis

WASHINGTON—First hint that Democratic President Truman preparing for the joint congress of co-operation on domestic matters with the new Republican congress which will meet Jan. 3 came Friday.

It was contained in the statement of an unnamed "high government official" that the administration was just about decided to drop several items still remaining over from the war and wage control.

If it does, it will be a encouraging sign for the United States and potentially set for Canada.

It was pointed out that a move would be a hint that the president has decided to put himself above partisanship for the remaining two years of his term, face the political situation resulting from the armistice and do his best to give the U.S. cohesive government in the second phase of the reconstruction from war to peace.

The Republican party is pledged to immediate removal of controls. If Mr. Truman were a vindictive man he could probably block the execution of that policy by the use of his veto power, to contrary what the Republicans will lack the necessary two-thirds majority. But if he were to do so, the country would face chaos. Under the

## ONE MINUTE NEWS ABOUT

## JOHN MANVILLE

## Let's Look At The Bright Side

Recently, your J-M reporter met a man who had discovered that the shortage problem wasn't entirely black. Here, a typical John-Manville dealer and here's what he had to say.

"I, of manufacturers can't meet today's prices for steel. It doesn't mean they can't do it. Even when I can't supply all the building material I would like to, at least I can help my customers with their plans."

With demand up four to five times, your J-M dealer can't satisfy them. He can, however, help them. He can help them plan a better home for the future. He will be glad to supply you with attractive, fully illustrated, and keep your money on the latest developments. Please your nearest J-M dealer. Northern Alberta Producers, 10253 - 103rd St. Phone 23005.

## See Ottawa Move As Crippling Blow

(Continued from Page 1)

lary plans of the R.C.A.P. Northern Alberta since the department of transport has been regularizing their flights as well as commercial aviation.

One government official, disagreeing with the policy taken in Ottawa, states "the cost of maintaining the line for air traffic control seems like a drop in the bucket when you consider the cost of building the line. At that \$85,000 is just about half the cost of an airplane."

"In the interests of safety the control should be continued," another official argued. He termed the Ottawa decision "most disturbing and a blow to civil aviation in the continent."

Northern airway traffic control is linked directly with the land telephone system. It is the only communication between radio stations. To discontinue this communication between land and air would be a disaster. Wireless communication is said to be too slow and unreliable for efficient contact with northern stations, which would be advised periodically of aircraft in their area. Control officers in Edmonton estimate speed of aircraft in the air, time their messages to stations within three minutes of estimated arrival time. This could not be done properly by radio.

Similar control set-ups keep in constant touch with aircraft flying on southern routes from Edmonton to Lethbridge and Oak Park. Control areas between Edmonton and Vancouver and Edmonton and Winnipeg also use this system.

## Patients Removed In Hospital Fire

HAMILTON, (CP)—Eighty patients were removed from their ward at a precautionary measure when a fire broke out in the Ontario hospital-operated machine explosion.

The patients were moved when the flames spread rapidly and dense smoke filled into their ward. The volunteer fire brigade at the hospital, composed of members of the staff, held the blaze under control until city firemen arrived.

Damage was estimated at \$2,000.

## Rancher Bags Deer By Rodeo Tactics

BERBER, Ariz. (AP)—Rancher Paul Leinhardt adopted rodeo tactics to bag a deer. Leinhardt was riding his range when he saw the deer and spurred his horse in pursuit. He bullroamed it, as a rodeo performer does a steer, tied its legs, slung it behind the saddle and rode home. Now the deer is in the corral at his ranch.

## SLEEP SAFE PATROL

Following a long series of robberies and assaults in Edmonburg, South Africa, two retired businessmen here have established a "Sleep Safe Patrol," to which several hundred residents will contribute. A large number of natives have been targeted to operate shuttle-service on bicycles in the streets and when they notice suspicious persons, to immediately notify the nearest police station. Every house subscribing will be visited once an hour day and night.

# Workers on Strike At Naval Depot

HALIFAX, (CP) — Lt. Cmdr. Lee P. Fife, information officer at the dockyard here, confirmed reports Thursday that a strike of civilian employees at the Royal Canadian naval ammunition depot at Renouf, N. B., is in progress.

"We have been informed that there is a strike of civilian employees at the depot," he said, "but we are not sure of the extent. It is a dispute over wages and there have been no strikes in the depot since the Halifax headquarters."

It was learned elsewhere that between 175 and 200 employees of the depot at Renouf, 18 miles from New Brunswick, N. B., walked off their jobs Thursday.

Fife began petting the base after the walkout, allowing only civil servants and stationary firemen to enter.

## German Captives Restoring Calais

By John Daphine

## German Captives Restoring Calais

CALIAIS, France, (CP)—German prisoners of war are working to repair the damage the Nazis brought upon the Pas de Calais coast.

Hundreds of Germans in duck life jackets are working in the docks and railway yards, mending and laying rails.

But from Calais to Boulogne stark ruins are visible by the sea and between the coastal railway and the English coast.

Thousands of tons of British and Canadian bombs were dropped first at 1940 invasion forces and then in the last days of the launching sites that poured the V-2 bombs into London.

Some parts of France have made good progress in housing and general reconstruction. But in the areas, some temporary houses have been built, and many of the ruins in other districts; but mostly the ruins lie where they fell during the German occupation.

The contrast is sharp with south-eastern France, where the war still rages on sections of the coast but wreckage by bombs and one-range shell is mostly cleared away.

In Pas de Calais, little but contamination. Housing programs were set up in the United Kingdom. Part of the Calais docks have not yet been repaired. But new railway bridges have been built in many places and groups of German prisoners from 20 to 40 men are working on building new stations and putting down new roadways where it is required.

Near at hand the houses damaged by Allied bombers still await repair. Burned-out railway cars lie in the sidings, not yet rebuilt although two years have passed since Canadian troops entered the Pas de Calais port. Along the shore the ruins of buildings stand out against the sky.

## Time Bomb Blast Rips Train Track

JERUSALEM, (AP)—A 30-year-old section of railway track near Haifa was ripped up shortly before dawn Friday by the explosion of a time bomb.

Military authorities said the explosion occurred shortly before the scheduled passage of a train and speculated that the bomb had been planted to demolish it. Police immediately changed their schedules only Thursday, eliminating night trains because of "five attacks on trains in 10 days."

## HUNGER STRIKER "OFFICIALS"

BEIRUT, (CP)—"Officials at Beirut prison today said that David Pennings, imprisoned Irish Republican Army leader, died in the 27th day of his second hunger strike within six months, was "very low."

# President Truman Drops His Soda Bars, No Jive

LONDON—British teen-agers want Canadian-style dragsters complete with soda fountains and milkshakes, but without juke boxes.

The youth council at Luton, Bedfordshire, with 4,000 members, between 14 and 20, says this in a report of its views on youth's leisure problems in postwar world.

Its chairman, Eric Mills, says: "Our report shows that about 14 per cent of young people want dancing as No. 1 recreation. What we want are dragsters around town—temperance dragsters—where you can get a milkshake, talk to a young man and drink lemonade, and sit and chat. There is nothing better than the dragster idea so long as noise and jiving are not allowed."

Even so, Mr. Mills continues, the Allies were certainly only a little ahead of the Germans in making progress toward the atomic bomb. He traces in his volume the early history of the Germans in atomic energy, an interest which apparently antedated that of any other nation.

## Find Nazis Close In Atomic Race

NEW YORK, (CP)—By what means the Nazis were close to the atomic bomb, the Allies were the atomic-bomb race against Germany is detailed in a new study by Marcel Boll, French scientist, which has reached the United States.

The margin indeed may have been a matter of only a brief time, Mr. Boll suggests, disclosing that American troops, shortly after the Nazi collapse, had discovered one ton of unprocessed uranium and one ton of "heavy water," unquestionably stored for atomic bomb production. The cache, significant evidence of how close the Nazis were to perfecting a weapon that might conceivably have ended the war in favor of Germany and Japan, was uncovered at Hechingen, near disarming in southern Germany.

The Germans had named their potential atomic-bomb the V-6.

Mr. Boll, professor of applied electricity at the Ecole des Hautes Etudes Commerciales, in Paris, also disclosed in his volume, *The Atomic Bomb*, that the Nazis had been working on the atomic bomb since 1938. He said that the Nazis were working on the atomic bomb since 1938. He said that the Nazis were working on the atomic bomb since 1938.

## Colds, Bronchitis, Sinus Trouble, Asthma, Catarrh

Have been successfully treated AT HOME by the use of PENICILLIN in the "HOME-TREAT" inhalant.

## Rejects Proposal For Trieste Barter

ROME (AP) — The Italian government Thursday rejected a reported proposal of Marshal Tito to barter Trieste for the Italian Communist leader, to leave Trieste to Italy if Gortina is ceded to Yugoslavia.

The Yugoslav proposal was reported by Tugliatti Thursday on his return from conference in Belgrade. An Italian government communiqué Thursday said that the Italian government "has not been asked to consider the cession to Yugoslavia of Gortina, an integral part of Italian territory and as such, acquired unanimously by the Big Four."

**Claims Both Are Italian**

An associate said premier de Gasperi characterized the proposal as a barter of one Italian city for another. He said the proposal was not made by Tito but by a Yugoslav delegate to the Trieste conference, and left the Italian government in a difficult position. The Yugoslav delegate, who is a member of the Italian Communist Party, is the ninth largest Italian city with 58,379 residents. Gortina city.

Yugoslavia's proposal was made public in the Communist newspaper, the United.

The paper quoted Tugliatti as saying on his return from three days of conference in Belgrade that "the only condition which Marshal Tito proposed is that Trieste receive within the Italian Republic an autonomous statute."

The Paris conference, whose decisions are up for final consideration of the Big Four foreign ministers in New York, voted to make the Adriatic port city of Trieste a free city and left Gortina, 30 miles north of Trieste, to Italy.

The Communist leader said he was not disposed to accept the Italian proposal, saying that it could hardly serve as a basis for a "definitive solution of all controversial questions between the two countries."

Both Italian and Yugoslav representatives objected Wednesday in New York to Big Four proposals for settlement of the Trieste dispute. The main bar to completing the Trieste peace treaty, Yugoslav leaders to the Paris peace conference went so far as to say that their country would refuse to sign the Italian treaty if its terms were not acceptable to Belgrade.

"Marshal Tito consented to the immediate repatriation of all Italian officers and soldiers who still are prisoners of war in Yugoslavia," Tito said. Tugliatti, as saying, "An official statement will be made and the repatriation will get under way in the next few days."

**NEW YORK (AP) —** Both Yugoslav and Italian Wednesday attacked a proposed Big Four settlement of the Trieste dispute.

Representatives of the two countries told a session of the council of foreign ministers that proposed controls for the new international territory would be dictatorial and undemocratic.

This brought an immediate rebuff from President Truman, who declared that both Yugoslav and Italian statements, particularly the latter, which amounted almost to threats, have made a bad impression on the Soviet delegation.

Whether this means a departure of Soviet backing from the Trieste government on the critical Trieste question, a treaty which may not be sundered immediately.

Yugoslavia offered two minor concessions with respect to the boundary and the proposed powers of a United Nations governor. But diplomatic authorities said these did not appear to advance a settlement.

The four-power ministers will resume detailed discussions on Trieste and other dispute issues in the Italian Treaty Friday.

Yugoslav foreign minister, made it clear Wednesday that Anglo-American views on the future of the Adriatic port were still unacceptable to his government.

**Britain, U.S. Plan Joint Occupation**

LAKE SUCCESS, N.Y. (AP) — The United States and Britain are determined to integrate Trieste and two occupational zones in Germany economically according to responsible sources here.

The present north frontier, it is now envisaged, will be abolished and an Anglo-American council will be vested with the unified control of the entire territory as one domain.

A lengthy agenda for talks between the American and British experts has been drawn up, headed by the important subject of food. They will even discuss such subjects as how banks should be re-located in the unified zone.

In view of her own food situation, Britain is particularly interested in Trieste's assistance in feeding the British zone.

Sir William Strang, British political representative in Germany, ambassador Robert Murphy, political adviser to the American high command in the zone, and Gen. Sir Brian Robertson, British army commander in Germany, have sent to Washington a considerable staff of experts.

Although the food problem in the forthcoming Anglo-American zone has been discussed here in private talks between Foreign Secretary Ernest Bevin and Secretary of State James F. Byrnes, those exchanges were very preliminary and tentative in character, it is said.

The probable procedure will be for the experts to go ahead with their tasks at Washington, and only call in the two foreign secretaries in the event they strike a sizeable obstacle.

It is hoped the experts will have reached an advanced stage in their negotiations by the time the Big Four foreign ministers get down to the problem of discussing the German peace treaty, although the usual discussions are only indirectly linked to the Trieste party.

**Sees Closer Unity Of Labor Councils**

WINNIPEG (CP) — It is expected there will be closer unity between the executive councils of the Canadian Congress of Labor and the United Labor Congress of Canada during the coming year. A. H. Fisher, said here Thursday.

Mr. Fisher, president of the C.C.L., is on a tour at his work.

## Molotov Visits President Truman

WASHINGTON (AP) — Foreign Minister Molotov of Russia came to Washington Thursday and had what he termed a "good conversation" with President Truman.

Mr. Molotov took time out from his duties at the United Nations meeting in New York to see Mr. Truman, and to attend a Soviet embassy party commemorating the anniversary of the Russian revolution.

President Secretary Charles C. Egan described the visit as purely a social affair—just a pleasant exchange of remarks on both sides. Through an interpreter, Mr. Molotov took time out from his duties at the United Nations meeting in New York to see Mr. Truman, and to attend a Soviet embassy party commemorating the anniversary of the Russian revolution.

## Sentence Dancer For Child's Death

STOCKTON, Calif. (AP) — Jeanette Pais, 21-year-old taxi dancer, was sentenced Thursday to serve from five-years to life imprisonment for sending to death her five-year-old daughter, a paralytic, with a certain rod.

The child was slain Sept. 11. Her body was found the next day in a shallow grave in an asparagus field.

## Gold Mine Head Guilty 5 Charges

TORONTO (CP) — A session court jury which deliberated five hours Thursday found Edwin M. Dempsey, president of Habitant Gold Mines Ltd., and a partner in the brokerage firm of Morgan, Dempsey and Company, guilty of five charges arising from the sharp rise and sudden collapse of Habitant stock early this year.

Kenneth Mac, the broker, was acquitted on four charges and found guilty on one. Wallace A. Dempsey, brother of Edwin and "field man" at the Habitant mine, was found guilty on two charges.

Judge J. Ambrose said sentence will be passed Nov. 12.

Edwin Dempsey was convicted of conspiracy to defraud the public of Habitant shares, two charges of issuing false information as a promoter and theft of \$25,000 from the Habitant Gold Mines treasury. Morgan, similarly charged, was found guilty only of the theft charge. Wallace Dempsey was convicted on the two charges of conspiracy.

Nearly 1,000 farmers in County Dublin, Eire, recently went on strike and won pay increases.

Woodward's Toyland on the Fifth Floor

# Anglo-French Financial Deal Help to Bidault in Election

PARIS (CND) — The new Franco-British financial agreement, highly advantageous as it is to the country, is viewed as certain to give pressure on the French and as a consequence likely to enhance the chances of Georges Bidault's Popular Republican party at Sunday's general election.

"This 'trade entente cordiale' decided by a British spokesman as proof of England's earnest desire to help France's economic recovery, may also serve to remove the political 'venetian cordial' considerably chilled by events since 1940.

According to the terms of the agreement, dated for early delivery, Britain announces the right to claim payment for outstanding French debts from the rather scanty clearing account which French still owes in England.

Postpone Payments  
Payments toward the French commitment of £100,000,000 (\$100,000,000) will not be required for the next five years. This interval is considered the minimum which France needs to bring its industry to a new level.

Another provision of the financial agreement is that Britain—approximately £120,000,000 (\$120,000,000)—need not begin until Sept. 1, 1946. In the meantime, this sum will be a non-interest current charge of one-half of one percent.

In exchange for these important concessions, France has agreed to pay British subjects, whose property in this country was damaged during the war, the same compensation

# C.N. Man to Judge Clydes at Toronto

WINNIPEG, T. P. (CND) — Assistant director of immigration and naturalization for the Western region, has been appointed judge of the Clyde's extradition hearing and co-judge of the charges for draft evasion on the part of the two Canadians at the Toronto Royal Winter Fair.

France is now expected to approach rapidly the pre-war volume of £200,000,000 (\$200,000,000) annually. The continued restriction of coal shipments from the Ruhr to France, which the French government has refused to accept, was a major factor in the financial agreement.

The British insist the economy of their German occupation zone is largely dependent on the Ruhr, and in spite of their desire to help France, they refuse to allow the cost of their operations in Germany.

William Eugene Fisher, Jr., of Berkeley, Calif., who already holds a distinction in that he is one baby in 1000 born from a woman who has had a baby before.

# Supply Outlook For Exports Good

ST. CATHARINES, (CND) — Trade Minister MacKinnon in an address here Thursday, said the "outlook as regards export supply conditions may well be described as one of expansion."

In a detailed appraisal of Canada's ability to meet the post-war demands of a post-war world, he maintained that "the main body of our exports is in a position to be going about as fast as our business in this field is being able to maintain or serious criticism."

He pointed out that the country provided possibly one-third of her export total, dominated by iron and steel, had fallen upon periods of slowest economic recovery, and that "the main body of our exports is in a position to be going about as fast as our business in this field is being able to maintain or serious criticism."

Obscure "Trade Week"  
The minister addressed a joint meeting of the St. Catharines Chamber of Commerce and the Canadian Exporters' association on the occasion of "foreign trade week."

He dealt in detail with the reaction to "the unique opportunity" which was being offered to expand our export commerce.

He noted that the country was finishing off an above-average crop but only a phenomenal crop could meet world demands that call for every bushel of wheat and every bushel of four-corn wheat and the 1947 harvest.

Land Farmers  
He cited the "mammoth" war record of western farmers as a defense that could be extended to many other industries unable to take full advantage of the post-war demands through no fault of their own.

Neurotic, the current giant of Canadian export, was being turned out to 90 percent of capacity but was unable to meet demands which would be in the same predicament next year. This situation extended to the pulp and paper industry. The lumbering industry was producing at the highest rate in 40 years but was below demand.

He noted the world's chief exporter of base metals, Canada was "crying" for the metal and had failed to end a world shortage.

# May Revive Tours Of Stage Plays

TORONTO, (CND) — Formation of a private company—shortly to be incorporated under the tentative title of Canadian Theatre Enterprises—to sponsor throughout Canada "the best forms of professional theatre regardless of where it originates" has been announced by Brian Roberts, well-known Toronto playwright.

Mr. Roberts, whose "Father Malachy's Miracle" was a 1947 success in New York, will act as general manager of the company—whose best forms of professional theatre remain anonymous—he told a press conference.

The first C.T.E. venture will be a company of a three-week visit to Montreal, Toronto and London, Ont., this winter of Don McIntyre, former British actor, starring in Oscar Wilde's "The Importance of Being Earnest" and "An Ideal Husband" and sets, costumes and properties—many of which were used in the hit in 1939 and played through the Blitz will make the Canadian tour.

Mr. McIntyre's visit is to be followed—if possible this winter—by appearances of other British stage stars and eventually by companies from France, Italy, the United States and other countries which remain anonymous—he told a press conference.

Mr. Roberts said negotiations were not yet complete with theatre owners across the dominion by which it was hoped to make possible tours embracing many of the theatre towns and cities. It now was possible, however, to bring a foreign company to Ottawa, Montreal, Toronto, Hamilton, London, Brantford, Kitchener, Winnipeg, Calgary, Victoria and Vancouver.

A 20-cent stamp issued in New Brunswick in 1913 was sold for \$400 at a London sale.

# Stowaway Sees British Wife and Child

LONDON (CND) — The British government's new law has agreed to the Greek request that British troops remain in Greece longer.

The request for an extension of the British presence in Greece would remain in Greece was based, it is understood, chiefly on the present state of unrest in the Balkans where, the Greek government insisted, no security measures should be regarded as exaggerated precautions.

The British government had intended to leave the country once the situation had been stabilized. In that referendum, King George II was returned to his throne.

The decision to remain a "little longer" was apparently reached after the British rejected the Athens request that the British presence be increased to a kind of emergency guard.

After consulting with British commanders on the spot, the British government, it was reported, concluded the civilian danger posed by the Turkish army would be of a political nature.

The British government had been reached because of the two years of the Greek civil war, separating the island of Corfu from the mainland. It was reported that a British destroyer struck a mine.

As to the question of the continuing presence of mines in the Corfu strait, it is understood that this issue is now being discussed at Athens.

# U.N. Committees Bog Down In Intricacies of Debates

By Nat A. Barrows  
LAKE SUCCESS, N. Y. (CND) — If the present fumbling and confusion which is besetting the U.N. committees get much worse, somebody will have to send out rescue parties.

Any high school debating society would be barred from the platform if it duplicated the spectacles which highlight the committees.

Debate goes round and round, and comes out nowhere. Issues at first get so involved that nobody, not even the chairman, is quite certain what is being discussed. Famous statements die off with boredom on the merry-go-round of repetition.

Spent Hours on Detail  
One committee, for example, spent exactly five hours and 51 minutes trying to agree on the most elementary procedure of all—adoption of an agenda already agreed upon.

Another committee wandered in a daze for nearly three hours over a simple qualifying phrase that had been used in a previous session. It has been much like a baby-sitter. It has been much like a baby-sitter.

FITCH SHAMPOO  
IS DIFFERENT—RESULTS ARE DIFFERENT  
Even the method of application is different... Fitch Shampoo is applied directly to the dry hair and scalp. The antiseptic qualities of Fitch penetrate and cleanse the thousands of tiny hair openings. Then when the hardest water is added, Fitch Shampoo forms an abundant, creamy lather that dissolves dandruff and carries away all dirt and perspiration. No acid after-shine is needed. Fitch Shampoo leaves all colors and textures of hair soft... lustrous... radiantly clean. It recommends as it cleanses. Fitch Shampoo is the largest selling shampoo in Canada and the United States. It's economical too! Use Fitch Shampoo regularly each week.

After and between Fitch Shampoo you can keep your hair shining and manageable by using a few drops of Fitch's Ideal Hair Tonic every day.

It's time for a new...  
Adrift on Ocean, Two Men Rescued  
NEW YORK, (AP) — Two residents of the Canary Islands who have been without food for a week and a half after being adrift in a 30-foot inflatable were rescued by the crew of a freighter Thursday after a 10-day ordeal at sea.

## Ukrainians Seek Entry to Canada

LAKE SUCCESS, N.Y. (CP)—An appeal to the United Nations to facilitate the settlement in Canada, the United States and the Argentine of 300,000 Ukrainian displaced persons in Europe was presented Thursday to Secretary-General Trygve Lie by the Ukrainian Canadian Centre, said here Thursday.

Very Rev. Dr. R. K. Kinsman, who was elected to the general assembly and was made on behalf of the Ukrainian section of about 80,000 displaced persons still being cared for by Allied governments in Europe.

It proposed that the international refugee organization being set up by the U.N. carry the cost of transportation and resettlement of these people.

## Claims Farmers Support Bracken

PRINCE ALBERT, (CP)—The party's victories in the Portage La Prairie and Toronto Parkdale by-elections "conclusively prove" the Progressive Conservatives are "on the way back" as Canada's next government, John Diefenbaker, Progressive Conservative M.P. for Lake Centre, said here Thursday.

Hundreds of farmers who had held opposing political views in 1945 supported the farm policy of John Bracken, party leader, in the Portage by-election, Mr. Diefenbaker said.

"The party had 'stood united' against the federal government's wheat policy, a policy which meant every farmer had been receiving 40 cents a bushel less than farmers in other parts of the world."

He alone of the 21 federal members in Saskatchewan had stood against "this unfairness being done to the farmer." The C.P.C. had tried to "trick the farmer."

"The only excuse for not giving the farmer a fair price that is offered is that it would bring inflation. No fair price ever brought on inflation."

Mr. Diefenbaker said the C.P.C. supported Agriculture Minister Gardiner in the British wheat agreement. As a result the farmers in the west lost \$30,000,000 in 1946 and will lose about the same this year.

The Progressive Conservative party believed "helping Britain by selling her wheat below world price but the difference should be paid for by the people of Canada, not the farmers of western Canada."

He said he is opposed to increased wheat prices. It would be a relief to the prairie provinces, but it would mean the increase in cost of food in general of five percent. It means the increase of \$40 in the price of an automobile.

Warning against the alliance of co-operative movements and political parties, Mr. Diefenbaker said the C.P.C. has been a co-operative of co-operatives as though it were a spiritual creation whereas it is private enterprise, and it is not a co-operative.

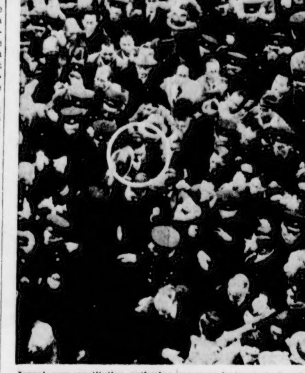

Shaw Is 'Unlikely' Take Comedy Job  
LONDON, (CP)—George Bernard Shaw, offered a job as a comedian's gagman, said Friday it was "utterly unlikely" he would take it.

Raymond Bennett, 300-pound music hall artist, who made the offer in a letter, got a reply by postcard from the 90-year-old playwright.

"I am a bit too old," Shaw wrote. "I have to thank you for the proposal in your letter, but my postcard must have been for over 50 years, yet you are the first writer comedian intelligent enough to see that I am rather old at monologue and hard-act, and to offer me a popular job."

"However, I will bear in mind, though I cannot promise you a date, I cannot help playing with the idea, though it is not unlikely that anything will come of it."

## Hirohito Renounces His 'Divinity'

Japan's new constitution, outlawing war as an instrument of national policy and placing sovereignty in the people, recently was promulgated by Emperor Hirohito, photographed in the circle, but in hand with his flying wedge of policy in front of him. Before he renounced his "divinity" he could walk unguarded as none would dare approach his sacred person.

Apple Growers Seek British Deal  
KENTVILLE, N.S. (CP)—An Nova Scotia apple shippers' overtime to catch up on shipments to the flourishing domestic market and at the same time fulfill their heavy British commitments, anxious Nova Scotia apple shippers are looking for a deal with the United Kingdom for next season's harvest.

This year an average crop of 1,000,000 barrels found ready sale on the domestic and British markets. But pessimistic growers feel they are losing contact with other foreign markets by sending their entire crop to British buyers.

They are preparing for a long-term agreement with Britain for apples similar to one between Britain and Canada for wheat.

Annapolis Valley growers are fearing loss of British sales if the French crop is back to normal next season.

They feel this is the logical time to negotiate a pact. The trade conference scheduled in Washington some months ago has been postponed and they fear after the conference long-term contracts may not be possible.

## Charges Russians Try Delay Parley

TORONTO, (CP)—Senator J. H. Hargis of Winnipeg, alternate delegate for Canada at the United Nations conference at Washington, said in an interview here that Russia was the secret of the atom bomb but she is not going to get it from the United States unless there is a cash-in agreement to permit a committee to watch for any unauthorized manufacture of the bomb.

Senator Hargis charged that Russia uses the United Nations assembly as a forum to promote her doctrines to the world, always taking the side which will cause the most trouble.

For instance, if the Russians think it is possible to get that most price are too high and that it will help to make the world, they will say it. They try in every possible way to delay the proceedings of the conference.

## U.S. Asks Canada, Nine Others To Help Set Jap Reparations

WASHINGTON, (AP)—In a move to break a deadlock with Russia, the United States has asked 10 countries, including Canada, if they will assist in preparing a directive for Gen. MacArthur on how to divide reparations from Japan.

Diplomatic officials disclosed Thursday night that the state department had advanced this proposal to the countries represented on the Far East Commission after noting Russia's unwillingness to attend a conference devoted solely to reparations.

The American suggestion was that the powers on the commission, which include all the Big Five countries, "consult" with the United States government in drawing up interim orders to Gen. MacArthur for.

Immediate division among claimant countries of from 15 to 20 percent of the Japanese assets forfeited for reparations.

Later determination of how the remaining 80 percent should be allotted.

Officials familiar with the problem said that under the American plan, a directive would be drawn up after these suggested consultations and sent to Gen. MacArthur for execution. It then would be submitted to the Far East commission for review.

If, as expected, Russian representatives on the Far East commission oppose the proposal, the program would be carried out anyway since Gen. MacArthur would already be acting on a directive sent by the United States under his power as the principal occupying authority.

The idea of permitting division of the Japanese assets in preparing this directive obviously stemmed from an American desire to avoid charges that the United States was "dictating" to the other members of the commission.

Soviet representatives have declined to accept an American proposal within the reparations conference within the commission, all six members of the countries on the commission agreed.

Anglo, West Africa, is building a brand new harbor at Lomé.

## Elderly Merchant Frightens Gunmen

TORONTO, (CP)—By threatening to "bash" their skulls and brandishing a four-foot club, 71-year-old William Henry Hamilton Thursday fought two youths who tried to hold up him and his 70-year-old wife in their east-end grocery store.

"After the second attempt had failed, I told them to get out of my store," said Mr. Hamilton later. "I threw it and it went after them with my club. They soon left after that."

## CANADIANS AID EUROPE

TORONTO, (CP)—Canadians are contributing an average of \$10,000 a month to the relief of European child war victims, figures released Thursday by the Save the Children fund revealed. Fund officials said a monthly average of \$100,000 will be required if the fund is to fulfill its winter obligations to Europe.

## Canadian Organizes Science As Fourth Arm of Defence

OTTAWA, (CP)—Behind a scientific staff desk in a test-tube clean office in a wartime armory building, an austere and determined scientist is quietly laying the foundations of a revolutionary experiment in defence technique.

He is Dr. O. M. B. Brundage, head of the embryonic Canadian defence research department, being formed as a fourth arm of Canada's armed forces.

## Press Baron's Family Arrives

One of Chief-of-Staff Brundage's appointment last Jan. 27, he sits as an equal member of the chief-of-staff along with Lt. Gen. Charles Foulkes, Rear Admiral M. P. Reid and Air Vice Marshal Robert Leckie. He is gradually organizing scientific research in a compact peacetime nucleus capable of rapid expansion in the event of war.

It is the first time in history that science has been placed on an equal footing with other defence services, and development of the department is going forward in easy stages. Organization and choosing of staff alone is expected to take at least another year.

"It is better to do things gradually in scientific matters," Dr. Brundage says.

How many personnel the department will embrace has not been decided. But in any case, it will have a comparatively small basic force, like the other defence branches. Its "reserves" will be called on from time to time and used for scientific work should the need arise—will be the men in the university laboratories and industrial research centres with whom the defence department's wartime connections will be close.

"Canada is essentially not a country which plans to make war," says Dr. Brundage. "It is a country which will defend itself by a total war—she cannot depend on a large professional force. Every scientific resource in the country would have to help."

A small force of scientists also has the advantage of economy and tends to give scientists the freedom required for research, he adds.

Takes War Branches Integrated with the land, sea and air forces who did much of their own research during the war, the new department will take over at least four of the wartime establishments set up to handle the huge share Allied scientists were given the dominion.

These will include the 100-acre military station 20 miles northwest of Medicine Hat, the Volcanic Explosives Laboratories of Quebec and the chemical warfare laboratories which actually are a part of the national research division.

Chosen for the job of organizing the department because of his broad interest in scientific research, Dr. Brundage has been engaged in research work for almost half of his 27 years.

Italy now has 2,380 miles of electric railway lines, more than any other country in the world.

Forty-five sounds of shellfire from America is being distributed in R.R.

Mexico will spend over \$800,000,000 on public works in the next fiscal year.

France is receiving 3,000 prisoners from the Germans.

Inflation has caused hotels in Shanghai, China, to increase rates 50 percent or more.

## New Radio "Brain" Tops War Marvels

LONDON, (Reuters)—Viscount Mountbatten's memory machine had better move over and make room for "Aces," a wizard radio which takes simultaneous equations with 50 to 100 unknowns.

The British department of communications and industrial research projects that Ace—automatic computer engine—will "hear" and "remember" orders better than Radio—electronic numerical calculator and computer.

Brundage was referred to by Lord Mountbatten in a recent speech before the British Society of Electrical Engineers.

Two years ago he was required to build Ace and the cost will be about \$125,000 (\$500,000), the research department said.

Ace can multiply 20 10-figure numbers in 2-1,000ths of a second.

King Not Thinking Of Quitting Job

OTTAWA, (CP)—Prime Minister King said a press conference Thursday he had no intention of resigning in the immediate future from the leadership of the government of the country.

The general election in 1945 resulted in a very good administration. Mr. King said with a smile, "and it is constitutional terms of office does not expire until 1950."

At one time before 1945 he would give thought to whether he should remain in his post.

Any party should realize it must be prepared eventually to select a new leader and that applied to the Liberal party. He was ready to do so, Mr. King said.

Asked what he thought was the reaction of the Canadian people to the elections in the United States, he said they doubtless would note the trend toward having a number of parties.

"There parties made a poor showing in the American voting."

Questioned on the recent by-elections in Canada in which the Liberals lost two seats, the prime minister said the successful candidates had been elected on minority votes and the voting showed many more against the Conservative government than for it.

Too many parties and too many parties were in the last interests of the government of the people of Canada.

He was opposed to coalition governments, he said. It might be necessary to have a coalition for a definite object, but a strong single party was necessary and preferable. The Conservative mind in one party and the Liberal mind in another was the best solution, he said.

## Calgary Is Testing Fluorine for Teeth

CALGARY, (CP)—Calgary has launched an experimental scheme of administering fluoride tablets to 300 students in two schools in an attempt to check tooth decay, it was announced Thursday.

This is believed the first time fluoride has been used on a wide scale in western Canada. Eastern cities in Canada and the United States have indicated the advisability of small quantities of fluoride into water supplies, assisted in checking tooth decay.

Special tablets containing a compound of fluoride with vitamins added have been selected for the Calgary experiment.

They are made available through the city health department at cost to students from grades two to seven in two schools.

If the experiment is successful, widespread use of fluoride tablets will be encouraged in all schools.

## Race for Uranium In Antarctic Seen

LONDON, (CP)—The Daily Herald published Thursday.

Washington dispatch saying Britain was leading a "race" to Antarctica, but noted that evidence of the presence of atomic energy from this source had been discovered here.

The Herald said a 30-man British expedition first sent out in 1945 was "fully established" at Marquette Bay, due south of Cape Horn, Argentina Bay's old base, while the United States, Russia, Norway, Germany and Chile were reported planning efforts to explore this land in the search for uranium.

## Two Firms Fined For Black Market

VANCOUVER, (CP)—Nine months of investigations by R.C.M.P. into importation of \$400 worth of "black market" clothing into Vancouver from eastern Canada ended in police court Wednesday when two city clothing firms were named fines totalling \$1,000.

Arday and Quigley, Ltd., which pleaded guilty to triple charges in connection with possession of \$34,000 worth of untagged men's clothing, drew a fine of \$750 from Magistrate McIntyre.

C. B. Quigley, secretary of the firm was given a suspended sentence when he pleaded guilty to two additional charges—conspiracy and failure to keep books of account.

On the same two charges Morris Lemmet, manager of Purke Fashion Goods, was fined \$250 and Magistrate McIntyre described him as "unusually... father of this whole business."

Crown counsel Daguid Donaghy, who came to court prepared for a long battle, had the whole content of court proceedings read out before the court building in a truck.

"There has been a big business in this in eastern Canada which has had serious effects," said the crown prosecutor as he submitted evidence to show that Quigley had been approached by Lemmet with information "he knew where to get clothing on the black market."

Quigley had been provided with a letter of credit to buy the goods, draw a cheque at Montreal where a manufacturing firm was allegedly "bookkeeping" the clothing, and crown prosecutor said. Prices paid the manufacturer were in excess of \$1,000.

Food Shortages Said Still Acute

By Peter Inglis

WASHINGTON—The International Emergency Food Council Thursday reminded the world there is still an acute food shortage.

In a resolution being sent to all concerned governments, the council stressed the need for "careful husbanding food resources in all countries dependent on imports and the urgency of conserving in exporting countries basic food commodities to meet world needs during the present crop year."

In an accompanying statement the council said world supplies of all basic foods are still "far short of meeting the world's needs."

It said the shortages were particularly serious in cereals, fats, oils and sugar.

"The council also noted a tendency to look at this year's large production of wheat and to overlook the very large decline in stocks."

It estimated the net increase in world wheat supplies from 1947 to 1948 at probably only about 200,000,000 bushels despite the fact actual production might reach 600,000,000 or 700,000,000 bushels above that of last year. The increase in production it said was largely being offset by a decline in world stocks.

## Acquit Nightingale In Espionage Case

OTTAWA, (CP)—An Ontario court judge Thursday acquitted Matt Simons Nightingale, 49-year-old Canadian, of espionage charges, a charge of giving information to Russia. The jury deliberated nearly three hours.

The case began a week ago as the fourth in a series of espionage trials. Two others have resulted in convictions and one acquittal.

A native of Mobile, Alabama, and a former graduate of the University of Toronto, Nightingale maintained his innocence and defense counsel contended he had in no way been linked with Russian fifth column activities.

## Baptists Pledge Loyalty to Canada

WINNIPEG, (CP)—Delegates to the Canadian Baptist Convention and the British Commonwealth and maintenance of a society based upon liberal democratic institutions and personal liberty were pledged Wednesday by the council of the Baptist Federation of Canada.

The federation's 10th annual meeting, which began here Wednesday and will continue until Friday, is being presided over by Rev. J. A. Johnson of Westminster, Guyana.

Seven members are attending. The federation also aims to unite the United Nations and of "all the constructive organizations of the world-wide effort to achieve human welfare."

## The Dominion Bank

1871 - 1946  
SEVENTY-FIVE YEARS OF BANKING

From the days of the Little Red Schoolhouse to the present age of scientifically planned and equipped school buildings, The Dominion Bank has been promoting progress. With 75 years of such participation in community betterment behind it, this Bank looks to the future with continued faith and optimism.

## Schools for TOMORROW!

Tomorrow's schools will employ new facilities for enhancing the child's health and happiness.

With windows above the roof of the corridors, the classrooms will be flooded with light from both sides, fostering good eyesight and encouraging cheerfulness.

Seating arrangement will be flexible. Moveable desks and chairs will make it easy to group the pupils, according to need, for greater convenience, comfort and interest.

Radio receivers with built-in loudspeakers will enable the teacher to make full use of educational broadcasts.

Such things, combined with new materials, modern heating and ventilation, plenty of window space, will conduct to "sound minds in sound bodies" in Canada's Schools of Tomorrow. Enterprise will produce them. This Bank will provide enterprise with the resources needed to translate plans into practice.

**Tries to Rescue Snowed-in Family**  
VERNAL, Utah, (AP) — A rescue crew, Ernest L. Caldwell and his tractor, chugged out of this eastern Utah town Thursday for his third attempt at reaching a family of three stranded in the high Utah mountains.

For two weeks, above two feet of snow blanketed the Utahs, Mr. and Mrs. Bjorn and their son have been locked in a small area near his ranch, 40 miles high and above the 5,000 foot level. Food and supplies have been dropped to the family by air.

**Military Officials Told 'Keep Mum'**  
WASHINGTON (AP) — The "leak" of an off-the-record talk by Russia by Secretary of State W. Averell Harriman has resulted in vigorous official efforts to caulk the seams of the new National War College.

The 100 army, navy and state department officials who are studying top-level military and diplomatic policies have been reminded sharply they must keep strictly mum on everything they are told during their nine-month course.

The same stipulation has been imposed on the few visitors who are admitted on rare occasions.

Officials who disclose the new secret precautions Friday would not say whether other measures had been taken or were contemplated.

Mr. Harriman, former ambassador to Moscow, was quoted last month by Agence France-Press, French news agency, as having told the college that Marshal Stalin is convinced that capitalism and Communism systems cannot exist permanently alongside each other.

Although Mr. Harriman commented afterward the report bore "little resemblance to what I actually said," his publication created an internal furor.

Military circles understood that the Harriman "leak" had been traced to a specific individual, and that a proposal to identify him by name was turned down. They hinted strongly that a published report that an army colonel was responsible was not true.

EDMONTON JOURNAL — EDMONTON, ALBERTA, NOV. 8, 1947 — EDMONTON BULLETIN

## Re-Lives Epic of 'Custer's Last Stand'

Terrence J. Chancy, 32, commander of the United States Indian war veterans, is showing the rapid attention of two-year-old Christmas, as he is known as "Custer" on a badge, relic of "Custer's Last Stand." The Indian fighters opened their 17th national convention at Los Angeles, discovering that of 25,000 original members, only 1,000 are now alive.

**Check on Doctors Entering Alberta**  
CALGARY, (CP) — Constant vigilance must be exercised against the registration in Alberta of medical practitioners who are abortionists, drug addicts, alcoholics or of low mental stability, Dr. W. Brantley-Moore, president of the College of Physicians and Surgeons, Edmonton, said at the opening of the Associated Hospitals of Alberta here.

Persons not registered with the college cannot practice medicine in the province, Dr. Brantley-Moore pointed out.

"The college when considering applications for registration checks the educational qualifications and moral and ethical background of the applicant," he said.

Dr. Brantley-Moore, however, said that cases of doctors attempting to practice in Alberta who had been investigated showed one to be a drug addict, another a chronic alcoholic and the third was insane.

**Britain Faces Another Year Of Austerity and Rationing**  
By Frank Swanson  
LONDON, (CP) — Austerity living which has bedeviled Britons for years, will continue as an unwelcome feature of life in these islands for at least another year.

This is the sombre outlook for the food crisis confronting the British isle as Germany and the United States to which the greater part of the British public has reluctantly come in past few weeks during a session of parliament which gave little hope of an end to rationing.

Some everyday necessities as food, clothing, fuel and gasoline are to stay on the ration list next year, and in some cases well beyond the end of next year.

**Special Session Of, States Drew**  
TORONTO, (CP) — Premier Dewar of Ontario has called members of the Ontario legislature by letter that he will call a special session of the legislature this fall "due to the abandonment by the United States of the doctrine of non-intervention in the domestic affairs of other nations."

Mr. Dewar said that he expected the session would be called in the middle of the month and that he expected the members to be at what came to be known as the "Coca-Cola" session.

The premier's letter said that he expected the session would be called in the middle of the month and that he expected the members to be at what came to be known as the "Coca-Cola" session.

**First Post Due In East Tuesday**  
HALIFAX, (CP) — Polish soldiers, who left Italian battlefields to be sent to the east, will be given gratuities of \$41 each and will be supplied with army clothing and equipment. The first of these soldiers will arrive at the first of the month.

The first batch will arrive at the first of the month. They are part of the 100,000 who will be admitted to Canada under an arrangement announced by Labor Minister Mitchell.

Date of the arrival of the second group, numbering 100,000, will be set tentatively as Nov. 21.

Distributors of the next group will include Winnipeg 320; Milwaukee 50; Lethbridge 150; Edmonton 150.

**Coast May Build Shins for Chinese**  
OTTAWA, (CP) — A trade department official said Friday that the Chinese government had been given a large shipping contract by the Ministry of Commerce.

He was commenting on a report that the Ministry of Commerce had been arranged with "authorities at Ottawa."

The official said negotiations had been under way quite a while but he did not think they are actually closed.

A Vancouver report that the contract would be awarded Friday was denied by Mr. C. D. Walker, president of the Bureau of Commerce.

He said a man in Ottawa had been on one ship contracts but he has no indication of any such deal at that, he said.

Oslo, Norway, will regulate housing space not adequately housed.

## Argues Liability Of Air Company

LONDON, (CP) — Counsel representing three Vancouver, B.C., passengers injured Nov. 29, 1946 when a Croyer Co. Airways Ltd. plane flying between Vancouver and Vancouver Island crashed in nearby waters Thursday.

The private counsel's petition submitted to the court should not be excluded from liability.

D. N. Pitt, London lawyer, argued that conditions printed on tickets issued by the company, even though signed by the passengers, were illegal under the Transport Act of 1924.

He contended that liability arose from the company's negligence, built up partly by statute and partly by common law.

"Under common law, the position may depend a little on whether the company is a common carrier of passengers or not. The position may be that a common carrier can make any terms he chooses if there is no statute to stop him."

Referring to the conditions printed on the tickets, Mr. Pitt said that under the Transport act a company "could not impose conditions unless it at least offered alternatives."

Earlier he quoted a clause on the tickets saying: "I hereby agree that such flight shall be at my own risk against all casualties to myself or my property and I accept the risk of any loss no matter how caused."

The passengers, Alfred W. Ludlow, Mr. E. J. Brown and William R. Parker, are appealing a supreme court of Canada ruling upholding a British Columbia court which reversed a decision awarding the applicants damages totaling \$10,000.

Mr. Pitt said the company is bound under section 25 of the Transport act to carry all persons "not in unfit condition" who paid fare, and "take all due care" in transporting them.

He questioned whether the rights of passengers to sue for damages in common law could be modified by terms relieving the company of ordinary carrier liability, without a corresponding reduction in fare.

**Moscow Bars Use Networks to U.S.**  
NEW YORK, (AP) — The Times said that American radio network correspondents in Moscow have been cut off from use of short wave facilities to relay their broadcasts to the United States.

The Soviet explanation of the move, the Times said, was that its heavy winter schedule of short wave programs "precluded the allocation of the high power to the correspondents."

Mr. Soviet explanation of the move, the Times said, was that its heavy winter schedule of short wave programs "precluded the allocation of the high power to the correspondents."

**Woman Economist Still to Stand Trial**  
OTTAWA, (CP) — Magistrate Burke ruled Friday for a second time that Miss Agatha Chapman, 39-year-old Bank of Canada economist, must stand trial on a charge of conspiracy arising from Canada's

espionage probe. Formal commitment will take place next Wednesday.

The magistrate said his previous decision was not affected by the acquittal in Ontario supreme court of Mrs. George Adams on a similar charge. The crown alleges Miss Chapman acted as a contact between Adams and Kathleen Will-

sher, serving three years in prison after pleading guilty to a charge of communicating confidential information.

The magistrate said he had reconsidered his decision in the light of the Adams acquittal but had decided there still was sufficient evidence to warrant commitment.

## Glamorous Furs AT SALE PRICES

You'll find scores of fine furs to choose from... you'll find the important fashions... all made with the sleekness of workmanship we feature in our regular stocks. Any coat in this sale can be bought on our budget plan.

TRI-LITES. Silver and brass standards.  
13.50, 16.95  
18.50 and 19.50

**MIRRORS**  
Genuine glass plate mirrors in dozens and dozens of shapes and sizes. Choose yours now, while selection is complete. Priced from  
2.25 to 31.50

**STEEL ON GARBAGE CANS**  
Large size, all metal STERLING BETTER VALUE  
1.69

**COAL HEATERS**  
Brick lined compact space saving coal heaters. A good selection. Sterling Better Value.  
18.50, 21.95, 25.95, 26.50

**Truck Hits Plane, Driver Is Injured**  
CALGARY, (CP) — John Klein of Calgary was badly injured Saturday when a truck carrying a load of lumber struck a plane flying low over the city.

The aircraft, one of 12 purchased from the War Assets Corporation, was being loaded from No. 10 re-entrant at Currie post office to the bottom lake, 100 miles north of Calgary.

The driver of the plane, George Thompson, 40, was killed instantly and the plane crashed into the lake.

**Finda Books Face Radio Competition**  
LETHBRIDGE, (CP) — More than 500 members of the Southwestern Alberta Teachers' association are planning to open a new branch of the organization's two-day convention here Saturday.

A. J. H. Powell of Edmonton said teachers had to meet "the terrific competition" of radio with its varied fare of juvenile entertainment in developing a taste for the better types of reading.

Stocking English and oral exposition, Mr. Powell said the present picture of the situation in the world of literature would have to give place to another picture in which a pupil would be induced to read a number of books of his own selection from an approved list.

**EA "is good tea"**

# TRAGIC FIRE AT FLORIDA CANNING COMPANY CRIPPLES CITRUS INDUSTRY

# TWENTY-EIGHT ESTONIAN REFUGEES PERMITTED TO STAY IN U.S.

**PRIVATE STOCK**—Michael McDonough, left, and his neighbor, Clyde Scham- baugh, know a good thing when they see it. And this private coal mine under McDonough's Bridgeport, O., home is it. Only three feet from the furnace, the mine entrance leads directly to the coal, which has not been worked on since 1914.

**QUICK CONVERSION**—These TWA hostesses, idle because of the pilots' strike, formed a baby sitters' service in Kansas City, Mo., to help pay the rent. Here they let one of their charges talk to her parents on the phone. The girls named their service "Clipped Wingers, Inc.," and chose as their slogan, "Ground Hostesses—We Sit."

**THREE'S TOO LOUD**—Radio star Jody Canova starts her campaign to refute the theory that women talk too much. Here the boisterous comedienne, caught in the middle of a discussion between Peter Donald, left, and Henry Morgan, plugs her ears until she can get in a word.

**SALLY'S BACK** — Sally Band, who made the bubble what it is today, arrives fully clothed for her arraignment at a Los Angeles court for indecent exposure in her show. Police officer and county prisoners in background watch Sally have her picture taken.

**"HELLO,"** says George, 14-year-old giraffe at the London Zoo, to his new neighbor. The newcomer on the left is one of six young giraffes which recently arrived at the English zoo from East Africa. George looks confident that he will still be the main attraction.

**MUSICAL ADVISOR**—Bandleader and radio showman Vaughn Monroe goes over a few bars at the piano with Girl Scouts Mary Boyle and June Bowerman, in New York City, after being chosen music advisor by the Girl Scout Chorus.

**IKE GETS AROUND**—Ralph Hutchinson, president of Lafayette College, Easton, Pa., confers honorary Doctor of Laws degree on General of the Army Dwight D. Eisenhower.

**NO HOUSING SHORTAGE HERE**—"Mike," five-week-old English Bull, owned by Robert Baxter, Miami Beach, is all set, temporarily at least, in a niche of his own. And rent is reasonable.

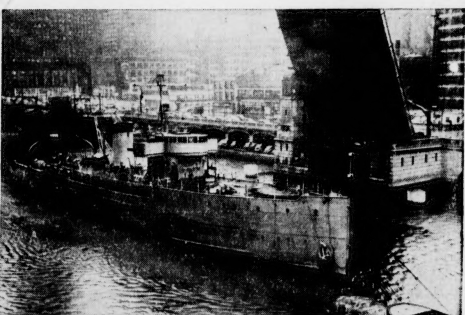

**COSTLY BLAZE**—This aerial view shows part of the fire that destroyed the \$500,000 canning plant of the Bordo Products Co., in Winter Haven, Fla. One man was fatally burned in the blaze that threw 900 persons out of work.

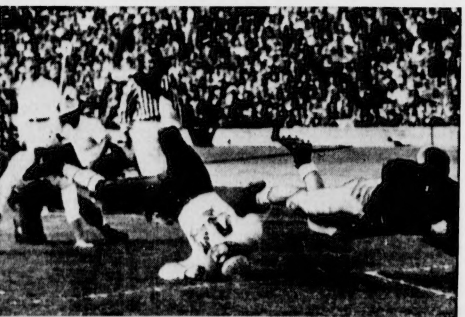

**HAPPY REFUGEES**—These 48 Estonians were given immigration visas which permits them to remain in the U.S. They had previously crossed the Atlantic in small boats, landing at Miami. The jubilant refugees are shown at the U.S. Border Patrol docks in Miami, where their boats are at anchor.

**NO LOAFING ON THIS ONE**—These bakers hold a nine-foot eight-inch loaf of bread they baked to be put on display. Members of the AFL Bakery and Confectionery Workers Union saw the mammoth size loaf of bread at Label Exposition in St. Louis.

**MISSION OVER**—The USS Wilmette, formerly the pleasure boat Eastland, passes spot on Chicago River where it sank in 1915 with the loss of 812 lives. Salvaged for use as a training ship in World War II, the old vessel is now on its way to scrap yard.

**DUMPED**—Flying through the air, Art Battle, Trojan halfback, scores first touchdown early in the game between University of Southern California and University of Oregon in Los Angeles Coliseum. Jake Leicht, Oregon's halfback, lands on his ear after failing to make tackle.

# Elizabeth Woodward Says...

Your Bartram burns you up at times. There are some words he uses so often they beat hammer on your brain. You could scream every time he rides his pet slang. And if he wears those pants spattered dungarees over to your house just once more...you'll yell. He has other clothes to wear...he ought to have enough regard for you to make himself at least presentable when he comes over to see you. He's just too careless for your taste...and one of those days you're going to tell him so!

The last straw is his new boy friend. Now there's a make in the grass. Imagine a boy friend coming between you...that's something you didn't expect. Oh, Ralph likes you well enough. But he's out to upset your opinion on Bartram. He keeps him from making dates with you. And takes him out on blind dates to meet friends. That is really too much. Bartram slung and his dungarees are annoying. But Ralph is a downright threat. So your opinion settled over last before last, and you told Bartram what you thought. You started off in a quiet, controlled voice making a simple statement of fact. You do not like him. Ralph. You don't like the color of his eyes, the way he parts his hair, the shade of his shoe polish, or the shape of his elbows. You just don't like Ralph.

## Dumb-Bells

## THESE WOMEN

"Remember the good old days when the sales manager used to harp on 'customer approach' and 'clinging the order'?"

## SIDE GLANCES

"If I had a couple of bucks I could date Marge tonight. Dad—her father, by the way, is an automobile dealer!"

## OUR BOARDING HOUSE

# Believe It or Not! by RIPLEY

## Your Baby

### And Mine

BY MYLIE MEYER ELDRED CARELESS DIAPER HANDLING MAY CAUSE RASH

This is the time of year when the temperature may make it difficult to dry the baby's diapers out in the air and sun. Also, once a baby goes to sleep at night, all tucked into his covers or under his sleeping bag, the mother hesitates to uncover and chill him in order to put him into dry diapers. It must be avoided.

The result of careless washing and drying, or of lengthy periods in wet diapers, may be a rash or soreness of the buttocks which is very hard to heal and causes the baby tremendous discomfort. It must be avoided.

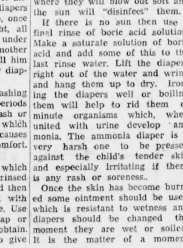

First the washing. Diapers which have been soiled should be rinsed quickly in the toilet bowl and then be set aside to be washed with the wet ones all at once. Use hot water and the best soap or washing flakes you can obtain. Use the washing machine to give them a good whirling and drumming.

## Bridge

BY WILLIAM E. MCKENNEY

The South can well be proud of its two "amen Life Masters." Mrs. William Wagner of Atlanta, Ga. Life Master No. 37, is president of the women's national committee of the American Contract Bridge League and holds the world title. Mrs. J. E. Poline of Richmond, Va., a very fine player, is Life Master No. 31. I predict that either or both of these girls will walk away with a championship at the forthcoming Winter Nationals to be held Dec. 15 to 15 at the Hollywood Beach Hotel.

## OUR BOARDING HOUSE

BY GENE AHERN

# Dorothy Dix Says—

One of the great temptations of middle age is to slump. By that time we are home or less worn out and frazzled with our struggle with life and nothing else looks so good to us as the do-nothing stool. We years to sit down on it and fold our hands and let Nature take its course. For we either cannot get up, or missed it, so why chase it any longer?

SO GREAT is this urge to just let go and give up, that millions of men and women yield to it, but when they do, they make a fatal mistake for they are really signing their death warrant, though they do not know it. They are crawling into their graves maybe 20 or 30 years before they were due in the cemetery, and, without realizing it, we are soon speaking of them in the past tense and saying what a brilliant and ambitious man John was to be, or how beautiful Mary was.

## Why Grow Old?

BY JOSEPHINE LOWMAN

Modern life is so full of strains and stresses that we must see that we have enough relaxation if we are to remain vital and lively as long as possible. The pressure under which most people live is the chief factor in modern life. Here we are in a haven of new scientific data about nutrition and long life, while about us an annihilating pace. Most people make an effort to obtain an adequate amount of relaxation but their leisure time is often more constructive than a nervous breakdown than a long life.

WE SHOULD let go in muscle and in mind as often as we can whenever we feel ourselves pushed and are working under pressure. It is most beneficial to relax deliberately. We work just as well and perhaps even better. Short rest periods during the day are helpful. It is a mistake to believe that the body will be any more tired by lying flat on your back. Deliberately let go in all of your muscles, beginning at your toes and working up to your head.

# Minute Make-Ups

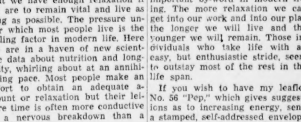

Even when you are busy with many duties, as Actress Jane Barker is most of the time, make a tremendous effort to relax. Your duties probably will be handled better.

liking of others. No matter what kind of work you do or how you spend your leisure it would be wise to remember that relaxation is an important byword in modern living. The more relaxation we can get into our work and into our play the longer we will live and the younger we will remain. Those individuals who take life with an easy, but enthusiastic stride, seem to outlast most of the rest in the life span.

If you wish to have my latest No. 56 "Pop," which gives suggestions as to increasing energy, send a stamped, self-addressed envelope with your request to Josephine Lowman in care of The Edmonton Bulletin.

## Minute Make-Ups

Dry skin absorbs oil as a plant absorbs water! Put on a foundation cream, use a cream rouge. Face powder should be patted on generously, then brush off the surplus. Your skin will take the "velvet" finish. And use a pomade under your lipstick.

Playing cards made from cellulose nitrate sheets are being manufactured which will outlast 50 years.

Jet propulsion is being utilized in motorboats. The water outboard motor is considered a cheap means of obtaining faster water transportation.
